### PROFILE

- Over a year of industry experience as a software engineer specializing in scalable web solutions and RESTful APIs using Python.
- Proficiency in Python frameworks Django and Flask, with a comprehensive understanding of the complete software development life cycle.
- Adept in object-oriented programming principles, implementing best practices for maintainable codebases.

### WORK EXPERIENCE

#### Software Developer

Bit&Binary - Ahmedabad, Gujarat

Nov 2022- Current

- Bit & Binary is a young and dynamic team of IT service professionals dedicated to serving the customer's needs in application development integration and technology integration.

#### Internship

Bit&Binary - Ahmedabad, Gujarat

Aug 2022 - Nov 2022

- Completing an internship at Bit&Binary has been an invaluable experience that has significantly enriched my skill set and understanding of the industry.

### PROJECT: BNBRUN

#### Description:

- Spearheaded the development of BNBRun, an all-encompassing web platform with dynamic website capabilities, robust sales modules, project management tools, and a hiring system akin to industry giants like India Mart and Indeed
- Integrated HRMS functionalities, intelligent attendance tracking, and social media administration tailored for enterprise needs.

#### Technology & Tools:

- Python (Django), Rest API, Angular, Typescript, Ionic, MySQL, Neo4j, Elasticsearch, AWS Deployment, CloudFront, Elastic Cluster, Private VPCs, Subnets, AWS RDS, S3 Bucket, Jenkins Pipeline, Docker, Docker Image and Docker Container.

#### Responsibilities:

- Translating project requirements into actionable strategies, facilitating effective team collaboration.
- Strategically planning and executing tasks, resulting in streamlined workflows.
- Developing and implementing project plans, demonstrating an innate ability to make informed decisions.
- Disseminating essential information to team members, fostering a culture of informed collaboration.
- Organizing tasks, personnel, and documentation to optimize project efficiency.
- Defining clear and achievable goals for team members, ensuring alignment with project objectives.
- Playing a pivotal role in the development and refinement of architecture, contributing to project success.
- Leading the development of frontend features, providing valuable guidance and mentorship.
- Orchestrating seamless build release activities, leveraging AWS services for enhanced project delivery.
